

RPH-53.3

- Rated Line pull 53.3 kN
- Recommended cable 11 mm
- Available with a Blocked Clutch
- Motor spool directional control valve required
- Available with air shift
- EN 14492-1 Compliant
- Made in the USA

RPH-53.3 Features

- Spring applied, hydraulic released multi disc brake
- High efficiency planetary gear set
- Foot mount or mid mount
- Fairlead and cable tension optional
- Manual or air operated free spool

Applications

- Towing & Recovery
- Petroleum
- Forestry
- Mining
- Construction
- Refuse

Specifications

Rated Line Pull	53.3 kN
Gear Reduction	7.7:1
Weight	131 kgs

LAYER OF CABLE		1	2	3	4
*RATED LINE PULL PER LAYER	kN	53.3	44.6	38.4	33.7
*CABLE CAPACITY	M.	6	13	22	33
*LINE SPEED (at 15 GPM)	MPM	9.1	10.6	12.1	13.6

* These specifications are based on recommended wire rope of 13 mm 1960 grade wire rope and a 328 cc Rev. motor. Relief valve set to 172.4 Bar (2,500 psi) which is the capacity limiter.

Winch Dimensions
